

Hope International School

Praise and Prayers

Points for Praise:

We continue to praise God for answering our prayers by providing us with an amazing property here in Phnom Penh on which we can build a new campus that will be for Years K through 12.

The land is owned by the Wesleyans who have provided us with an amazing 15 year lease as well as a substantial loan whereby we can build new buildings for primary school, high school and middle school. We will be moving our middle and high school classes from the current campus by March 2015 and then opening the primary school in August of 2015.

So we praise God for this miracle of the land, lease and especially the loan and the vision of the Wesleyans who will be walking with us in this journey to have a new a permanent home for HOPE International School.

Points for Prayer:

1. For the new staff to integrate well into the Hope Community and to bring in fresh energy and vision.
2. For the Director, Brent Willsmore, who has built up the school over the last ten years who retires at the end of the year; that his final year may be an appropriate crown to all his vision and commitment.
3. That the school may obtain all the permissions needed to enable them to start building work at Hope North on schedule.
4. That new pupils will settle in well and thrive in the Christian environment.

Thanks so much for your continued and faithful prayers for our work here to support mission families in Cambodia.

Blessings! Michael and Jean and

Paul Hughes, Development & Communications Officer
